

Privacy Policy

This privacy policy has been prepared by Atakonline Domain Hosting Internet and Information Technologies LTD to define the responsibilities regarding user information privacy for the website www.domainnameapi.com, operated under the Domain Name API brand. The following items contain the rules for information collection and distribution through services available on www.domainnameapi.com.

Company Address: Özker Özgür Caddesi, No:1 Hamitköy, Lefkoşa, K.K.T.C.

We will use your IP address to identify, resolve, and manage any issues on our servers and services, and to manage our website. Your IP address will also be used to recognize you and your shopping cart during transactions, gather demographic data, and compare it to previous records you provided.

www.domainnameapi.com does not monitor or censor the information that users send or post through its services. Users are responsible for all legal consequences related to their activities conducted while using www.domainnameapi.com services.

On the customer registration form on our website, users must provide requested contact information (such as name, address, phone number, email address, etc.). We use this contact information for domain information, emergency situations, and delivery of invoices. Users can delete their records from our system upon request.

Financial information obtained will be used to collect payment for products and services purchased and for other necessary purposes. Personal information will be used to verify the identity of the user when logging into the system or when necessary.

Statistical and profile information is also collected on our site. This information may be used as needed. It is used for tracking visitor movements and/or providing personalized content.

Our website contains links to other sites. www.domainnameapi.com is not responsible for the privacy policies or content of other systems and/or sites you may access or interact with through our website.

SECURITY

Our company implements security measures to prevent data loss, unauthorized use, and unauthorized alteration of information. These security measures include:

1. Credit card transactions are conducted using SSL encryption technology, ensuring that your credit card information is securely transmitted to our bank via an active SSL Security Certificate.
2. Your credit card number is never stored. Only the card number used during the transaction is not tracked or recorded by www.domainnameapi.com. This transaction remains confidential and encrypted between you and the bank, even though the process occurs through our website.
3. Our site works with secure server technologies (such as Windows, Linux, BSD). The latest known protections and updates have been installed, and the system's health and security are continuously monitored to prevent any loss.

Your personal information is not shared with any person or institution except for valid and authorized requests from ICANN, local courts, and EGM (General Directorate of Security) as required by law and international agreements.

Correction / Renewal

Users of the www.domainnameapi.com system have the right to change any previously provided information or data registered in their panels at any time, without any barriers or permission.

Information Request

You can obtain information about your rights under Article 11 of the Law, which regulates "the rights of the data subject," and the application process under Article 6, and can contact us by using the "Personal Data Application Form."
